---

## Key Skills & Qualifications

---

### Leadership

- With interdepartmental feedback, designed networking plan and survey tool for designing new educational programming
- Updated policies, expanded editorial board, created a new revenue stream while enhancing rigor, and established a cost-saving publishing partnership at an academic journal
- Partners across cultural sectors by building relationships and identifying opportunity

### Organization

- Experienced in program and curricular development; aligns new courses, certificates, and degrees with institutional requirements and constituency demand
- Researched and implemented best practices for enhancing equity and inclusion in academic unit's decision-making processes
- As managing editor and author, moved twelve book projects to publication in ten years by tracking progress and evaluating content while prioritizing most pressing tasks

### Communication

- Author who is passionate about social progress and research sharing
- Performance evaluations consistently identify capacity as a strong and courteous communicator
- Led an international team of colleagues in successful completion of proposal for a new academic field; developed a partnership with a peer-review journal, established annual prize competition, used electronic media to market programming

---
